

Compliance / Whistleblower system

GEALAN Private Limited is a wholly owned subsidiary of VEKA Private Limited. VEKA Private Limited is a wholly owned subsidiary of VEKA AG, Germany, which is a part of the family-owned Laumann Group of companies.

For **GEALAN**, compliance means more than just adhering to laws and standards as a matter of course! Values such as reliability, commitment and transparency are our aspirations. That is why we set ourselves a Compliance Management System at an early stage that effectively reinforces these principles for a long-term and trusting co-operation with all our business partners.

A central component of this Compliance Management System is a Whistleblower system that employees and business partners can use to anonymously report information about possible compliance violations.
